

Application No.: 10/603,357
Filing Date: June 25, 2003

SUMMARY OF INTERVIEW

The interview was conducted on October 27, 2010, and was attended by Examiner Heather Rate Jones and Applicant's representative, David Weiss. Applicant's representative discussed differences between the features of claim 21 and the Chambers and Suzuki references. Agreement was reached that if the claim 21 was clarified to reflect that the cue referred to in claim 21 is configured to cause a modification with respect to the abstract visual presentation when the audio presentation is audibly played back via a viewer's playback device, separate from the device used to edit the cue, the rejection over the art of record would be overcome. The Examiner reserved the right to conduct additional searching.
